

DAUN TAOK WOMEN'S GROUP:

TOILET CONSTRUCTION 2009

February: STT meet community and do photo project with 3 groups (women, men and children) looking at what people like and don't like in their community

April: Women's group decide they want to build a public toilet to improve the sanitation in the village. They discuss plans to construct it and how much it will cost and how much contribution they can get from everyone. In June Rainy season sets in and everything on hold!

October: Women's group agree to contribute wood, sand and labour to the project. They have gathered 25USD contribution. Final designs are made for a 2 toilet block costing approx. \$335

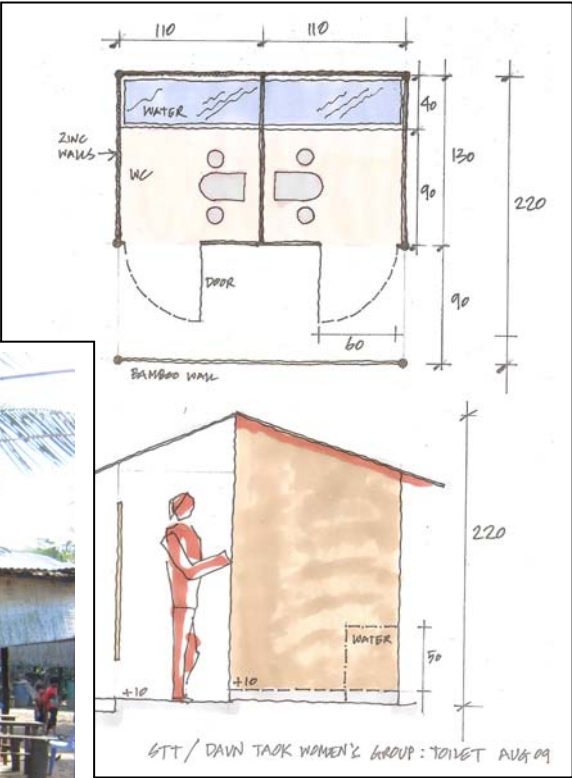

December: construction completed with additional labour hired and materials and extra cost but...

	Budget	Actual
Contruction costs	245	294
Labour	0	100
Community contribution		
Sand	20	20
Wood	40	40
Labour	30	0
TOTAL	335	454

Sahmakum Teang Tnaut (STT) contributed 374USD and CWDCC contributed 20USD. Many thanks also to the Trauey Koh Commune Council for their support and assistance.

Right: STT design based on women's group discussion

Below: site positioned between coconut trees to give good shade and aid air circulation

Above: construction nearing completion. zinc walls replaced by brick which raised the cost plus the group requested an apron of cement around the toilet to keep area usable in wet season
